

Manish Basnyat

Bishalnagar-4, Ktm | 9843662766 | manishbasnyat182@gmail.com

Education

2012 – 2016 BE Computer Science – Nepal Engineering College(nec), Changuarayan, Bhaktapur

Work Experience

August, 2019 – Current Laravel Developer – Shoonya Technology Pvt. Ltd.

Programming Languages / Technology**Major**

Laravel, PHP, HTML, CSS, Bootstrap, MySQL, Git

College Projects

1. Carpooling Web Application, Semester VI – The project used basic user login/registration and connected riders to the customers through requests and notification.
2. College Notice/Profile System, Semester IV – The project was an indirect clone of facebook, with categorization of users and profiles and Notices/News on the news feed.

Commercial Projects

1. 2018, ktmlist.com (Policy Nepal Private Limited)-The project was an absolute approach to reduce haphazard usage of inquiry hotline, providing users to navigate and list businesses and their profiles on the platform.
2. 2018, altitudetrailsnepal.com (freelancing) – This project was created for a client who runs a travel and tourism business. The purpose of this app was to help fellow travelers find proper travel and trek packages.
3. 2019, hoteltapas.com (freelancing) – It is a simple yet dynamic hotel web app. Customers may book a room ahead of their visit through this app.

Personal Projects

1. nepalisloud.com. This is an online music magazine that's on its way. I am currently developing the backend for the website and writing api for the mobile application using Laravel.
